An Especially Strong Showing of Women's Modish New Silk Dresses, Very Low-Priced at \$22.50

Only Saturday we received another large number of the same high-grade and attractive New Crepe Meteor Silk Dresses as we offered last week. They present the very latest and most desirable style features and are in every respect new, pretty, and a most interesting value.

None of the modish colors are missing—that is, those in demand for street, tailored, calling, and general informal occasions; odd, new shades, just brought out this season; and the more staple colors of black and navy.

Special mention is made of the very large variety of sizes shown in black and navy for those who wear nothing else, or who select these tones to vary their wardrobe.

Three of the choicest models this season are included, and they are the same only in general line, the manner of applying the trimming imparting touches of distinction and charm.

Bands of Persian silk and pretty touches of color; the modish broadened collar and cuffs and flying panel are particularly attractive; the high and low necks trimmed with frills of net and lace, and the front of the bodice formed of pretty white net and trimmed with touches of velvet or ribbon give them a very becoming style tone. Skirts are prettily draped in pleasing styles.

Dresses worth much more than the special price, \$22.50.

Chiffon and Silk Blouses: Latest Creations and Exclusive Styles

We might well say an almost endless variety of the very newest models, many of them exact copies of French models, bearing the impress of distinctive style and fashion. In black, navy, taupe, mahogany, Copenhagen, green, and Russian blue.

Fine Shadow Laces and Crepe de Chine are employed in all the newest shades; high and low neck styles, with Mandarin, draped, and set-in sleeves, and numerous style touches in richness of trimmings.

Careful attention has been paid in the selection of these waists to obtain only those that embody correct and exclusive fashion ideas.

Prices, \$5.00 to \$25.00.

Women's Fall Footwear Showing Every New Style Feature

The solution of the selection of the proper Autumn Footwear is promised entire satisfaction in the extensive assortment of models which we now show. The styles indicate in no uncertain terms the features that have found favor and express in well-defined lines new types and improvements in designing and styling based on knowledge that has been secured by methods that will prove advantageous to the wearer.

The exhibition runs the entire scale of fabrics, leathers, and combinations. Swagger boots to give the proper final touch to street costume; boots severe and dignified; boots in the extreme of fashion's frivolity; ultra-conservative boots to modify and advance fashion's gowns; sassy boots to brighten a too conservative costume—boots that will harmonize with whatever you wear—such is our showing of Fall and Winter Footwear for winter. Your particular style is here, in your perfect and comfortable fit.

\$3.50 to \$7.00 pair.

WILSON AVOIDS TAFT'S MISTAKE WITH COURT

President Evidently Was Well Posted When Justices of Supreme Tribunal Called.

The Supreme Court called at the White House to pay its customary visit of respect to the President yesterday. The members were received formally in the Blue Room by the President, who conversed with them for a brief period, and then gave the signal for their departure by rising.

The President was well posted on the custom of this occasion. An incident of Mr. Taft's administration was recalled by contrast. Mr. Taft, when he received the grave justice, was uncertain as to whether he should give the signal for the departure, or to await it from the members of the court.

Conversation dwelled in this uncertainty and soon the assemblage was in a state where mentally they were twiddling their thumbs. An attendant whispered something in Mr. Taft's ear, and with a happy smile he arose and stretched out his hand to the Chief Justice.

Health and Beauty Aids

BY MRS. MAE MARTIN.

Quinine: Yes, you can overcome the results of the careless treatment of your hair which has commenced to destroy its natural beauty and cause it to grow dull, "straggly," brittle and fall out. I change my hair by using a hair shampoo. The shampoo dissolves in a cup of hot water. This greatly invigorates the scalp and causes hair to grow and produce a healthy condition in both, insuring a beautiful growth of even-colored, lustrous, fluffy hair. It is found that shampoo is extremely soothing to tender, itchy scalp and allows the hair to dry very quickly.

Lotta M.: Here is a simple, inexpensive treatment for hairy growth: Mix a thick paste with some powdered talcum and water. Apply to hairy part and wait, and in two or three minutes rub off and the skin will be smooth and hairless. Then wash the skin to remove the remaining talcum.

Darling: Yes, it is true that fat always destroys the beautiful line of the figure, but if you do as I have before advised—add a quart of lemon juice to your diet, and your form will be plump and beautifully proportioned. In one and one-half pints of lemon juice, you will find a powerful fat-burner. This treatment will gradually dissolve the unnecessary fatty tissues. Try this potent treatment and you will never have any reason to feel embarrassed because of your shape.

Peart: You girls were right when you decided that face powder clogs the pores, even though much is blown off the skin and leaves a spotted complexion. To avoid this annoyance and enjoy a softer, healthier, finer complexion if you apply a spritzing lotion. This is quite inexpensive and is prepared by dissolving four ounces of alumina in one-half pint of water. Shake well and use as directed. It is especially nice to banish summer's freckles and tan and the yellow, unhealthy part of powder-mottled skin, and to give a delightful freshness and youthfulness to your skin.

Johanna: Yes, you have a good reason to feel alarmed about your hair. But you can remove the dandruff and overcome that dryness without paying a

large sum to a hair specialist. Just make up and use the quinine hair tonic I frequently advise and it will not but the scalp in a healthy condition and your hair will grow in thick and beautiful. Place the tonic into one-half pint alcohol pour one ounce quinine, then to this add one-half pint water. This gives you a full quart of hair tonic. I know I know its use will insure a clean, healthy scalp and a wealth of brilliant, fluffy hair.

Dull Eyes: I had been told that so many doctors use a plain crystal solution for inflamed eyes that I tried it and found that for sore, tired, aching, or bloodshot eyes this simple tonic worked wonders. It is one of those cheap, effective home remedies that should be convenient to hand for use in removing foreign particles, and to reduce inflammation. To prepare, dissolve one ounce crystals in one pint clear water, then put two or three drops in the eye as required. This crystal eye tonic is fine for giving a sparkling and youthful expression to the eyes.

Mrs. L.: For years I have avoided wrinkles by protecting my skin against that too-ready tendency to sag which you describe. I have stopped the salacious which would have gradually wrinkled my skin by using this wrinkle remover which a friend suggested. Get an ounce of alumina, dissolve in one-half pint water and add two teaspoonfuls of glycerine. A tablespoonful of this mixture should be used twice a day. At low cost, this makes a perfect wrinkle remover in the form of a protecting and stimulating cream jelly. It is a pleasant thing to use and most delightfully beautifying in results. I use it freely, both before and after exposure to fall winds. It will not grow hair, but will act as a preventive of the loose, sagging which comes with age.

Dora: For your pimples and blemishes I am giving the formula for the best blood cleanser I know. It is the best because it acts on the liver and kidneys, and if, as you say, you are troubled with constipation and indigestion, it is an indication that your kidneys and blood need attention. To prepare, put one ounce of Epsom salt in one-half pint of water (which should not be used), then add one-half cupful sugar and hot water to make a full quart. A tablespoonful before meals is the dose. This medicine tonic gently expels poisonous waste from the body and cleans up the internal organs so they can do their work well.
